

## Teacher Guide for the Interim Module Assessment (IMA) Using the Student Public Browser at Home

### What is the Student Public Browser?

The Student Public Browser can be used by a student to take tests at home. If students are in school, they should use the Student Secure Browser. For students testing at home they can access the interim tests using a URL provided by the teacher. The student opens Chrome or Firefox on their computer/laptop and enters the URL. The student's device is not "locked down." The student can access the Internet using a browser window and/or communicate with the teacher in real-time using the district's online learning platform or communication program (such as Schoology, Teams or Zoom). The Student Public Browser requires the teacher and the student to be logged on and testing at the same time in real-time.

**Important: This is NOT available for iPads.**

If the student's device is a . . .	. . . then the student uses the following software:
Computer running Windows, Mac, or Linux	Chrome or Firefox web browser
Chromebook running Chrome OS	Chrome web browser

### Before You Test Using the Student Public Browser at Home

Before you advise your students to use the Student Public Browser at Home, you must do the following:

1. Verify with your principal/test coordinator that your students have the required devices and browsers needed to use the Student Public Browser at Home.
2. Verify with your principal/test coordinator that your students' use of the Student Public Browser at Home coordinates with your district's plans of using the optional, interim assessments to measure achievement gaps in student learning.

Once you have verified these two steps, then you can provide to your students the **Student Guide Public Browser at Home** (PDF) located on the WV Assessment Portal at <https://wv.portal.cambiumast.com/resources/quick-guides-cat/>.

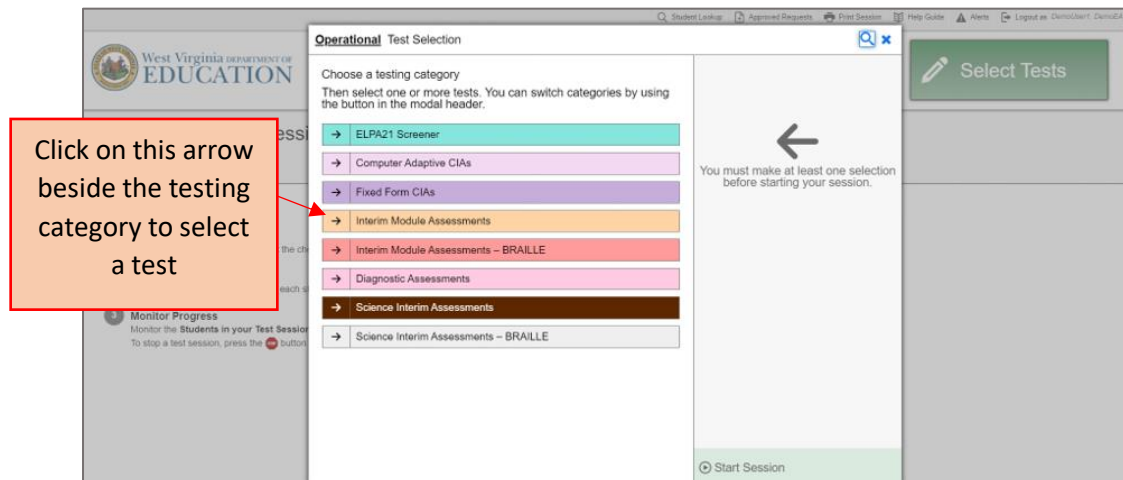

## How to Administer an IMA

Refer to the *TA User Guide* found on the [West Virginia Assessment Portal](http://wv.portal.cambiumast.org/resources/test-administrators) (wv.portal.cambiumast.org/resources/test-administrators) for detailed information about administering a test.

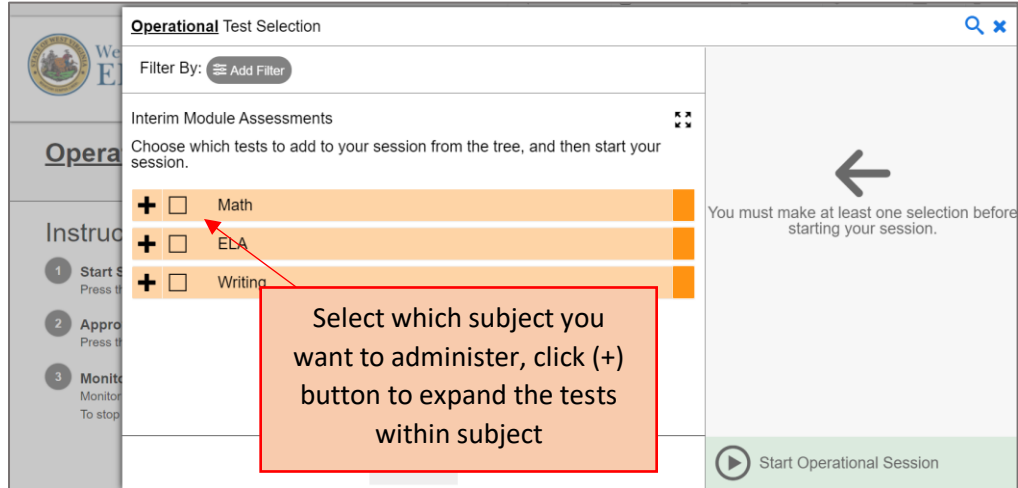

1. On the West Virginia Assessment Portal (wv.portal.cambiumast.org), select Test Administrator and click on Operational Test Administration. Once you click on the Operational Test Administration card, the Login screen will appear. Use your login credentials to access the **TA Site**.

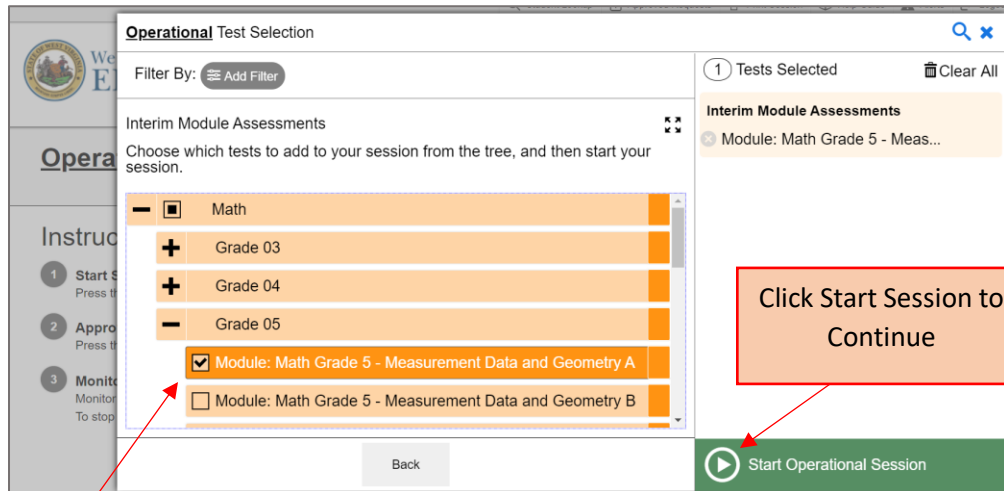

2. Once you log in, you will see the **Test Selection** window. If the **Test Selection** window is not open, click **Select Tests** in the upper-right corner of the TA Site. When the Operational Test Selection window opens, click on the arrow beside the testing category—Interim Module Assessment.

- After selecting the Interim Module Assessments, the ELA and Math submenu appears. Select which subject IMA you want to administer by clicking on the (+) button to expand the tests.

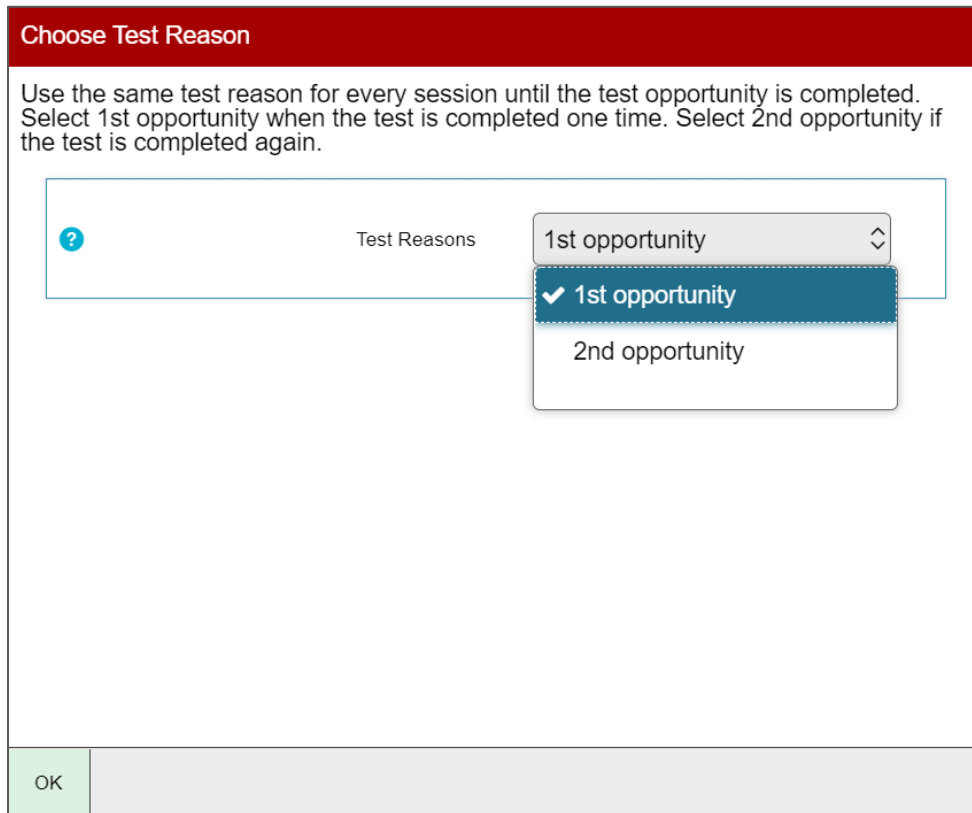

- Click on the IMA making sure it is the desired grade and content area. The selected IMA will appear under the **Test Selected** column. Next, click **Start Session**.

Check the box for the test you want to take

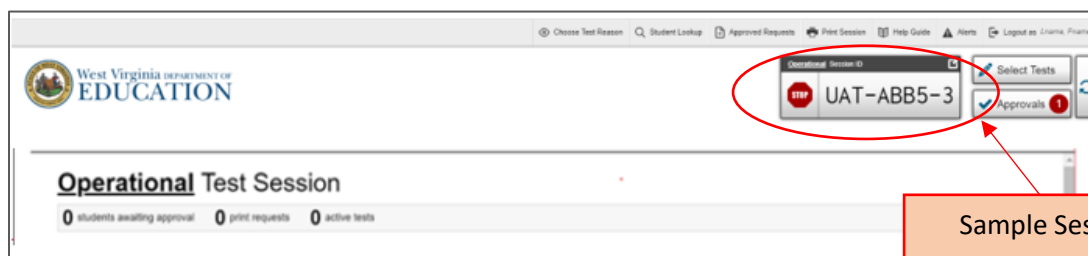

Click Start Session to Continue

5. The **Choose Test Reason** window appears, and you must choose a test reason to continue. The Test Reasons are 1<sup>st</sup> opportunity and 2<sup>nd</sup> opportunity. Use the same test reason for every session until the test opportunity is completed.
- Select **1<sup>st</sup> opportunity** when the test is being completed one time and click **OK**.
  - Select **2<sup>nd</sup> opportunity** if the test is being completed again and click **OK**.

6. After clicking **OK**, the **Session ID** appears on the TA Site in the upper-right corner.

Important: Remember to write down and save the Session ID in case you encounter any issues, need to look up a roster or student, or need to modify the test reason.

Sample Session ID:

UAT-ABB5-3

7. You will provide to your students the URL of the Student Public Browser at Home, in addition to the Session ID of the IMA. Students will follow the directions in the **Student Guide Public Browser at Home** to take an IMA.

**Provide Additional Support and Guidance as Needed**

Important: Students testing at home may need additional support and guidance. We recommend, at minimum, these additional steps to assist students who are testing at home and your district may provide more guidance.

	<b>Suggested Steps Checklist for Teachers</b>
✓	1. Verify each student is using Chrome or Mozilla on a computer or Chromebook because these are the only browsers that will work.
✓	2. Remind students an iPad cannot be used because the test will not load.
✓	3. Use your district’s online learning platform or communication program (such as Schoology, Teams or Zoom) to monitor that each student has successfully typed in the Student Public Browser at Home URL and it has loaded to the Student Sign-In Page because students may mistype the URL.
✓	4. Provide the Session ID of the IMA to each student because they will need it to log in.
✓	5. Provide each student a copy of the <b>Student Guide Public Browser at Home</b> and review the document with students prior to testing.

The remaining information below is excerpted from the **Student Guide Public Browser at Home**. This printable, student-user document is located at <https://wv.portal.cambiumast.com/resources/quick-guides-cat/>.

## Student Guide Public Browser at Home

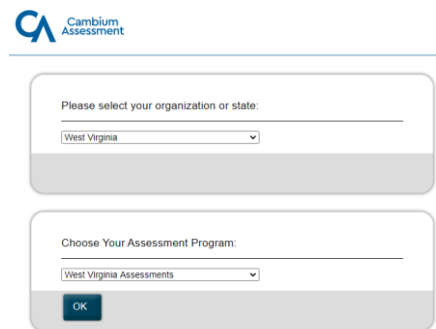

**Important: This mode is NOT available for iPads.**

If the student's device is a . . .	. . . then the student uses the following software:
Computer running Windows, Mac, or Linux	Chrome or Firefox web browser
Chromebook running Chrome OS	Chrome web browser

### Student Sign-in Using Student Public Browser at Home on Computer or Chromebook

1. Launch either Chrome or Firefox on your computer or Chromebook.
2. In the URL bar, enter <http://mobile.tds.airast.org/Launchpad/> and hit “Enter” on your keyboard. The **Mobile Launchpad** page appears.
3. From the drop-down lists, select “**West Virginia**” and then “**West Virginia Assessments.**”
4. Select “OK.” The **Student Sign-In** page appears.

Figure 1. **Mobile Launchpad** Page

5. Enter the following information:
  - a. In the *First Name* and *Student ID* fields, enter your first name and SSID. Your first name should match the name indicated in WVEIS. Do not use nicknames.
  - b. In the *Session ID* field, enter the session ID provided by your teacher. This ID is created by the teacher when they start a test session.

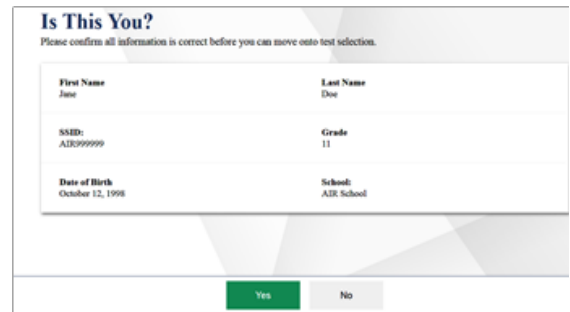

Figure 2. **Student Sign-In** Page

6. Select “**Sign In.**” The ***Is This You?*** page appears.
7. If all the information on the ***Is This You?*** page is correct, select “**Yes**” to proceed. The ***Your Tests*** page appears.

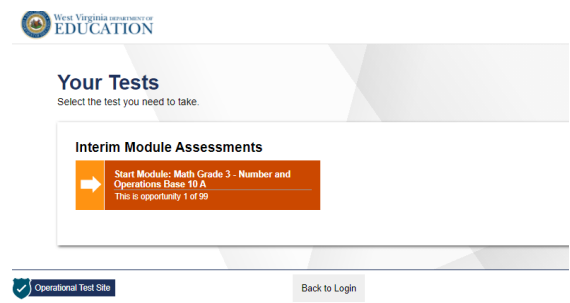

If any of the information is incorrect, you should notify your test administrator before proceeding.

Figure 3. ***Is This You?*** Page

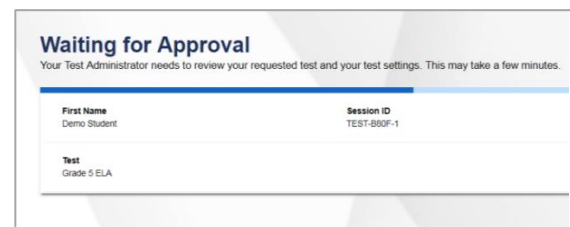

8. From the ***Your Tests*** page, select the Interim Assessment your teacher has indicated you will be taking.

Figure 4. ***Your Tests*** Page

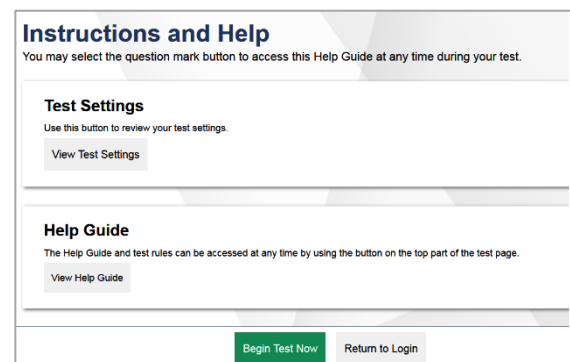

9. Your request is sent to the teacher, and you are taken to the ***Waiting for Approval*** page. The teacher must approve you for testing before you can proceed. Once the teacher approves, the ***Instructions and Help*** page appears.

Figure 5. ***Waiting for Approval*** Page

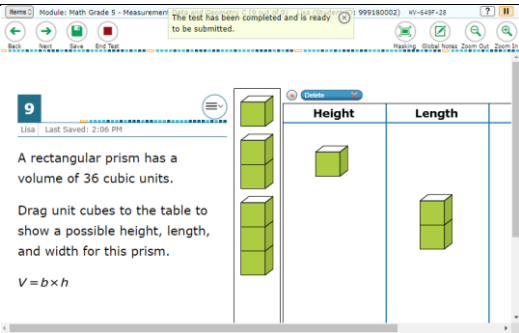

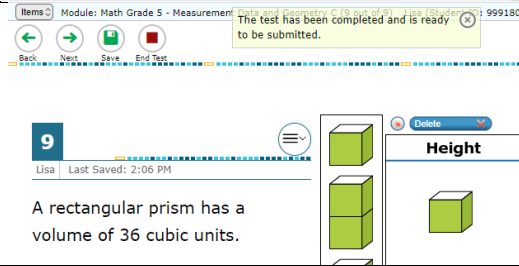

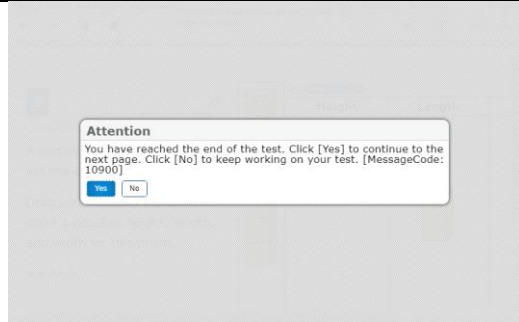

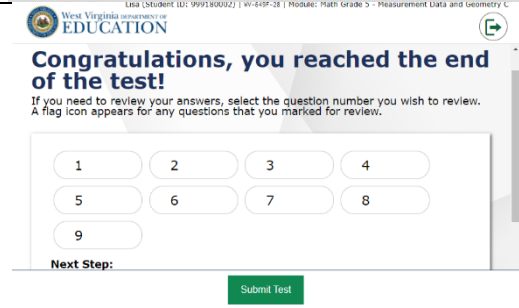

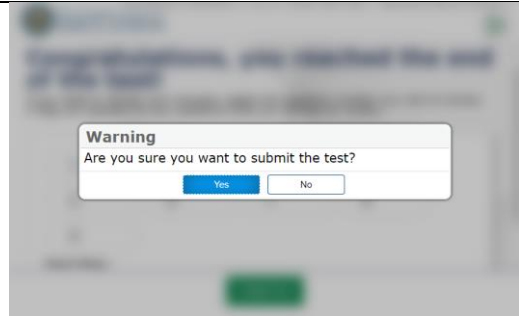

10. To start the test, select “**Begin Test Now.**” Test questions appear on the screen and you can begin.

## Student Sign-out Using Student Public Browser at Home on Computer or Chromebook

<p>1. On the student site, when you answer the final question on the test, a yellow message box appears in the upper-right corner of the page that states, <b>The test has been completed and is ready to submit.</b></p>	
<p>2. Click on the red <b>End Test</b> button in the upper-left corner.</p>	
<p>3. An attention message will appear once you click on <b>End Test</b>. Click <b>Yes</b> to continue to the next page and submit the test.</p>	
<p>4. You can review the answers by selecting the question number. To submit the test, click the <b>Submit Test</b> button.</p>	
<p>5. A warning message will appear asking if you are sure you want to submit your test. Click <b>Yes</b>.</p>	

<p>6. The <b>Your Results</b> page appears. Click <b>Log Out</b>.</p>	
<p>7. The student page refreshes and returns you to the <b>Student Login Information</b> page. Click the “x” on the browser tab to close out the Student Public Browser at Home.</p>	

If you experience any issues or problems during testing, please contact your teacher for assistance.
